## SUMMARY

Certified Cybersecurity and Web Development professional with a unique background in Penetration testing and UI/UX Design. This experience provides a practical, business-oriented perspective to technical challenges. Combining foundational skills in secure coding practices in front-end development (HTML, CSS, JavaScript), and UI/UX design principles to contribute to the creation of robust and user-friendly applications. A proven quick-learner, as evidenced by the rapid completion of multiple industry certifications including [Coursera UI/UX design online certification and ISC2 certified in Cyber Security.
